## AGENDA ITEM #10C

**Meeting Date:** March 12, 2024

**Item:** Budget Presentation Memorandum

**Staff Recommendation:** Board Information Only

**Staff Contact:** Mohammed M. Haque, District Manager

### Purpose:

Included in the board packet is the Fiscal Year 2024-25 budget proposal for the Northern Moraine Wastewater Reclamation District. Included are proposals for the Sewer O&M Fund, Capital Fund, and the Alternate Revenue Bond & Interest Fund. The adopted budget will act as our guidance document for the next fiscal period and all funding proposed will achieve the intended goal and objectives. While the operating budget provides guidance for the fiscal period, the adoption of the District’s annual Appropriations Ordinance sets the upper limits for spending within all funds. Careful consideration of each funding proposal has insured that projects further advance the District in meeting its major strategic plan goal of continuing to provide a sustainable utility.

In 2021 we aggregated seven existing funds into three future funds. This year’s budget builds onto the simplified structure and less funds. A summary of the aggregation completed in 2021 is below:

BEFORE		AFTER	
01	General Fund		
02	Audit Fund

### **Budget Schedule:**

We have worked diligently to provide a comprehensive budget proposal in advance of the needed date for adoption. Madalina Roscan assisted in the development of this year's budget and all staff contributed in determining our various needs for the coming year.

Beginning on March 15, 2024 the proposed budget will be placed on public display to ensure that the required thirty-day review period is provided prior to final board action at the May 7, 2024 regular board meeting. A public notice of the availability of the proposed pending public hearing has been prepared for publication. Board members are encouraged to provide input on expanding or contracting programs, spending priorities and discuss any concerns. Board members are encouraged to contact the District Manager with questions on the budget proposal.

At the May 7, 2024 Board Meeting, Trustees will have a final opportunity to recommend adjustments to the budget, following which a public hearing will be conducted on the proposed budget. Upon closure of the public hearing, the budget may be formally adopted by a majority vote of the Board. We believe that this schedule provides many opportunities for input, questions and answers while assuring that the District will begin the next fiscal period with an adopted budget. A formal Appropriations Ordinance will be presented for approval by the Board at a future meeting during the first quarter of the fiscal period, pursuant to State Statute.

### **Budget Proposal Format:**

The 2024-25 Budget proposal has been developed using data and reports generated in QuickBooks, and care has been taken to assure that all functional items are easily related to the approved budget for past fiscal periods and allows for an accurate, direct comparison to our immediate past income and expense in each fund.

In keeping with the budgeting philosophy developed in 2012-13, capital expenses previously shown as operating expenses for the sewer operation and maintenance funds have been shifted to capital expense line items to better identify those expenditures as offsets for depreciation and for proper capitalization. This year, we have continued the shift of large capital expenditures to the Capital Fund, to comply with the fund's intent. The format of the budget proposal is intended to be fully informative, yet concise, allowing board members to make well-informed decisions based on historical operational experiences, expected trends and well justified, goal oriented programs.

While the budget proposal document acts as a spending guide for the coming fiscal year, it does not replace the fiscal reports generated by the District from the District's accounting software, in preparing the monthly Treasurer's report. These reports are reviewed by a CPA monthly prior to approval by the Board and all District financial activities are audited annually.

### **Fiscal Outlook:**

The last fiscal year has allowed us to resume some normal operations and nearly finish some major construction projects in Holiday Hills – Phase 1, Lakemoor Lift Stations, Control Building Electrical Upgrades and various Plant Projects. It has been a challenging time for staff, as we have restructured our operations staff to accommodate new roles that fit our talent. In addition, we have completed the transition of a new District Clerk and hired additional help with a part-time Clerk. The last fiscal year has shown that our staff continues to persevere and handle many things that are presented to us. This year's budget is meant to continue maximizing on grants we have received.

Careful consideration was performed in budgeting this year to ensure that the District has a balanced budget and starts the path of building back cash reserves incrementally, while still performing the necessary capital projects needed to maintain our assets. One thing to note is that this year's budget includes our second repayment by the Village of Lakemoor for our loan to them of over \$1.2 million. In addition, we have our first payment on the Holiday Hills Phase 1 IEPA loan that we procured for \$5.3 million.

In conjunction with seeking further grants, the District should continue to promote our sound practices and market our service to improving health, safety and our water environment. One of the great challenges that remains is continued inflationary pressures. We anticipate commodity prices to continue increasing and also anticipate that wages will need to continue increasing to retain our top talent.

The District has held our tax rate flat, after a steady decrease beginning in 2012. The District's property tax levy in 2011 was \$396,000 and the expected 2023 levy based on the budget proposal is expected to be \$90,000. Few other taxing districts are able to reduce their levy and many are being criticized for increasing levies. Thought may need to be made to increasing the levy in the future or to reduce the abatement we currently make on the GO Bonds.

The District's fiscal outlook remains relatively strong and with the continued cash management we should remain stable for the foreseeable future, meeting the critical strategic goal of operating a sustainable utility. There are significant areas where equipment has far exceeded its useful life and progress is being made to upgrade that equipment.

### **Budget Summary:**

The proposed budget is reflective of substantial capital needs, maximizing grant opportunities with much historically needed projects, and optimistic view of future grant opportunities for capital projects. We remain a strong and agile utility and continue to provide the best service to our users and the public and continue to move the District forward on its goals of updating equipment and assets for the public's benefit.

Respectfully Submitted:

Mohammed M. Haque  
District Manager
