

INVITATION TO BID

ADDENDUM #1

Northern Moraine Wastewater Reclamation District

Sludge Drying Bed Cover

**BID OPENING:
July 5th, 2019
2:00 pm**

Based on questions received to date, please be advised of the following information and changes to the specifications.

1. Please confirm that this proposal is for just one building.

This proposal is for one (1) building ONLY.

2. What is meant by “controllable” part of the louver requirement?

The louver should be capable of being open and closed MANUALLY. No electrical operators are needed.

3. Please confirm which of the beds you are looking to cover based on the photo below.

See red outline below:

4. Please provide more specifics on the “partially enclosed” front end wall for the structure. Your current buildings are completely open on the front.

We are looking to match our existing buildings. The existing buildings have a partially closed back (can be closed or open) and an open front.

5. Please clarify the block wall.

The District will be providing the block wall. This bid is for the building and installation on the District provided block wall.

Note: Please include this Addendum #1 with your bid.
