## INDEPENDENT AUDITORS' REPORT

September 10, 2021

Members of the Board of Trustees Northern Moraine Wastewater Reclamation District Island Lake, Illinois

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Northern Moraine Wastewater Reclamation District, Illinois, as of and for the year ended April 30, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

## Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

## **Auditor's Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Northern Moraine Wastewater Reclamation District, Illinois, as of April 30, 2021, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Northern Moraine Wastewater Reclamation District, Illinois September 10, 2021 Page 2

## **Other Matters**

## Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis as listed in the table of contents and budgetary information reported in the required supplementary information as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

## Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Northern Moraine Wastewater Reclamation District, Illinois' basic financial statements. The other supplementary information and supplemental schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The other supplementary information and supplemental schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information and supplemental schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

## MANAGEMENT'S DISCUSSION AND ANALYSIS

## Management's Discussion and Analysis April 30, 2021

Our discussion and analysis of the Northern Moraine Wastewater Reclamation District's financial performance provides an overview of the District's financial activities for the fiscal year ended April 30, 2021. Please read it in conjunction with the District's financial statements, which begin on page 12.

## FINANCIAL HIGHLIGHTS

- The District's net position decreased as a result of this year's operations. Business-type activities decreased by \$559,440, or 1 percent after the closing of the District's governmental activities, including the General Fund and Audit Fund, into the business-type activities. Going forward, the District will be reported entirely under the business-type activities function.
- During the year, government-wide revenues for the primary government totaled \$3,145,689, while expenses totaled \$4,080,303, resulting in a decrease to net position of \$934,614.
- The District's net position totaled \$42,821,517 on April 30, 2021, which includes \$40,076,467 net investment in capital assets, \$158,959 subject to external restrictions, and \$2,586,091 unrestricted net position that may be used to meet the ongoing obligations to citizens and creditors.

## USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. The Statement of Net Position and the Statement of Activities (on pages 12 - 15) provide information about the activities of the District as a whole and present a longer-term view of the District's finances. Fund financial statements begin on page 16. For governmental activities, these statements tell how these services were financed in the short term as well as what remains for future spending. Fund financial statements also report the District's operations in more detail than the government-wide statements by providing information about the District's most significant funds.

## **Government-Wide Financial Statements**

The government-wide financial statements provide readers with a broad overview of the District's finances, in a matter similar to a private-sector business. The government wide financial statements can be found on pages 12 - 15 of this report.

The Statement of Net Position reports information on all of the District's assets/deferred outflows and liabilities/deferred inflows, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating. Consideration of other nonfinancial factors, such as changes in the District's property tax base and the condition of the District's infrastructure, is needed to assess the overall health of the District.

Management's Discussion and Analysis April 30, 2021

## USING THIS ANNUAL REPORT - Continued

## Government-Wide Financial Statements – Continued

The Statement of Activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the District that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the District include general government. The business-type activities of the District include sewerage operations.

## **Fund Financial Statements**

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into two categories: governmental funds and proprietary funds.

## **Governmental Funds**

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the District's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate the comparison between governmental funds and governmental activities.

The District maintains two individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund and Audit Fund, both of which are considered a major funds. As of April 30, 2021, the District's two governmental funds have been closed into the business-type activities.

Management's Discussion and Analysis April 30, 2021

## USING THIS ANNUAL REPORT - Continued

## Fund Financial Statements - Continued

## Governmental Funds - Continued

The District adopts an annual appropriated budget for all of the governmental funds. A budgetary comparison statement for these funds has been provided to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 16 - 19 of this report.

## **Proprietary Funds**

The District maintains one proprietary fund type: an enterprise fund. Enterprise funds are used to report the same functions presented as business-type activities in the government—wide financial statements. The District utilizes enterprise funds to account for its sewerage operations.

Proprietary fund financial statements provide the same type of information as the government-wide financial statements, only in more detail. The Sewerage Fund is considered to be a major fund of the District.

The basic proprietary fund financial statements can be found on pages 20 - 22 of this report.

## **Notes to the Financial Statements**

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 23 - 42 of this report.

## **Other Information**

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the District's IMRF employee pension obligation and budgetary comparison schedules for the General Fund and Audit Fund. Required supplementary information can be found on pages 43 - 46 of this report. Combining and budgetary comparison schedules for the can be found on pages 47 - 50 of this report.

Management's Discussion and Analysis April 30, 2021

## **GOVERNMENT-WIDE FINANCIAL ANALYSIS**

Net position may serve over time as a useful indicator of a government's financial position. The following tables show that in the case of the District, assets/deferred outflows exceeded liabilities/deferred inflows by \$42,821,517.

	Net Position						
	Governmental			Busine	ess-type		
		Activi	ities	Acti	vities	Total	
		2021	2020	2021	2020	2021	2020
Current and Other Assets	\$	-	496,060	3,020,089	3,834,358	3,020,089	4,330,418
Capital Assets		-	-	43,816,467	43,843,402	43,816,467	43,843,402
Total Assets		-	496,060	46,836,556	47,677,760	46,836,556	48,173,820
Deferred Outflows		-	-	301,442	329,167	301,442	329,167
Total Assets/Deferred Outflows		-	496,060	47,137,998	48,006,927	47,137,998	48,502,987
Long-Term Debt		-	-	3,607,826	4,032,782	3,607,826	4,032,782
Other Liabilities		-	-	570,743	589,924	570,743	589,924
Total Liabilities		-	-	4,178,569	4,622,706	4,178,569	4,622,706
Deferred Inflows		-	120,886	137,912	3,264	137,912	124,150
Total Liabilities/Deferred Inflows		-	120,886	4,316,481	4,625,970	4,316,481	4,746,856
Net Postion							
Net Investment in Capital Assets		_	_	40,076,467	39,743,402	40,076,467	39,743,402
Restricted		-	8,535	158,959	985,243	158,959	993,778
Unrestricted (Deficit)		-	366,639	2,586,091	2,652,312	2,586,091	3,018,951
Total Net Position		-	375,174	42,821,517	43,380,957	42,821,517	43,756,131

A large portion of the District's net position, \$40,176,467 or 94 percent, reflects its investment in capital assets (for example, land, buildings, machinery, and equipment), less any related debt used to acquire those assets that is still outstanding. The District uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion, \$158,959 or less than 1 percent, of the District's net position represents resources that are subject to external restrictions on how they may be used. The remaining 6 percent, or \$2,586,091, represents unrestricted net assets and may be used to meet the government's ongoing obligations to citizens and creditors.

## Management's Discussion and Analysis April 30, 2021

## **GOVERNMENT-WIDE FINANCIAL ANALYSIS** – Continued

Change in Net Position	(375,174)	(27,267)	(559,440)	(586,945)	(934,614)	(614,212)	
Net Position - Beginning	375,174	402,441	43,380,957	43,967,902	43,756,131	44,370,343	
Net Position - Ending	-	375,174	42,821,517	43,380,957	42,821,517	43,756,131	

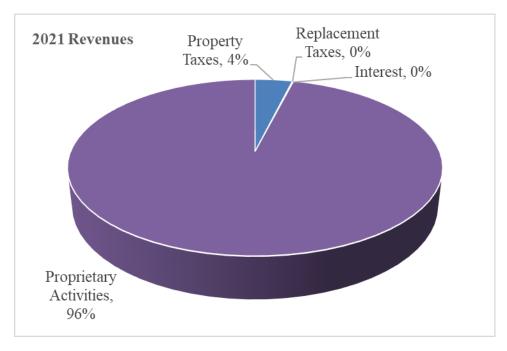

Net position of the District's governmental activities decreased by 100 percent (\$0 in 2021 compared to \$375,174 in 2020) due to the closing of the governmental activities into the business-type activities during the year.

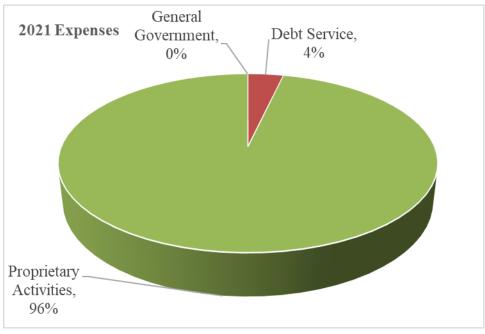

Net position of business-type activities decreased by 1 percent (\$42,821,517 in 2021 compared to \$43,380,957 in 2020).

Management's Discussion and Analysis April 30, 2021

## **GOVERNMENT-WIDE FINANCIAL ANALYSIS – Continued**

Revenues for the District totaled \$3,145,689, while the cost of all functions totaled \$4,080,303. This results in a deficit of \$934,614. In 2020, expenses of \$3,643,004 exceeded revenues of \$3,028,792, resulting in a deficit of \$614,212. The decrease in 2021 was due in large part to increased personnel, contractual and maintenance related costs during the year.

Management's Discussion and Analysis April 30, 2021

## FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

## **Governmental Funds**

The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

The District's governmental funds reported combining ending fund balances of \$0, which is \$375,174, or 100 percent, lower than last year's total of \$374,174 due to the closure of the General and Audit Funds during the year into the Sewerage Fund.

## **Proprietary Funds**

The District's proprietary fund provides the same type of information found in the government-wide financial statements, but in more detail.

The District reports the Sewerage Fund as a major proprietary fund. The Sewerage Fund accounts for all of the operations of the District's sewerage system.

The deficit in the Sewerage Fund during the current fiscal year was \$559,440, while the previous fiscal year reported a deficit of \$586,945. As previously stated, this decrease is due to an increase in personnel, contractual and maintenance related costs during the fiscal year.

## GENERAL FUND BUDGETARY HIGHLIGHTS

Due to the District closing the General Fund into the Sewerage Fund during the year, there was no budget established for the General Fund for April 30, 2021. A transfer of accumulated fund balance of \$366,639 was made during the year. Going forward, the District will be reported as a single business-type activity fund, with three sub-funds.

Management's Discussion and Analysis April 30, 2021

## CAPITAL ASSETS AND DEBT ADMINISTRATION

## **Capital Assets**

The District's investment in capital assets as of April 30, 2021 was \$43,816,467 (net of accumulated depreciation). This investment in capital assets includes land, buildings and improvements, system infrastructure, and equipment and furniture.

	Capital Assets - Net of Depreciation			
	Busine	ess-type		
	Acti	vities		
	2021	2020		
Land	\$ 1,076,505	1,076,505		
Construction in Progress	740,856	-		
Building and Improvements	1,343,842	1,201,866		
System Infrastructure	38,676,205	39,880,349		
Equipment and Furniture	1,979,059	1,684,682		
Total	43,816,467	43,843,402		

Additional information on the District's capital assets can be found in note 3 of this report.

## **Debt Administration**

At year-end, the District had total outstanding bonded debt of \$3,740,000 as compared to \$4,100,000 the previous year, a decrease of 9 percent. The following is a comparative statement of outstanding debt:

	Long-Term Del	Long-Term Debt Outstanding			
	Busine	ess-type			
	Activities				
	2021 2020				
General Obligation Alternate Revenue Bonds	\$ 3,740,000	4,100,000			

Additional information on the District's long-term debt can be found in Note 3 of this report.

Management's Discussion and Analysis April 30, 2021

## ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

The Board considered the following factor in preparing the budget and appropriations ordinance for the District, which was adopted for the 2021-2022 fiscal year:

• The equalized assessed valuation (EAV) for the District for 2020 is \$324,253,584. This represents an increase in EAV of \$14,157,348 in comparison with the prior year.

The District's elected and appointed officials considered many factors when setting the fiscal-year 2022 budget, including tax rates, and fees that will be charged for its various activities. One of those factors is the economy. The District is faced with a similar economic environment as many of the other local municipalities are faced with, including inflation, unemployment rates, and the effects of the global health emergency from COVID-19.

## REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the District's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional information should be directed to the District Manager, Northern Moraine Wastewater Reclamation District, P.O. Box 240, Island Lake, Illinois 60042.

## **BASIC FINANCIAL STATEMENTS**

The basic financial statements include integrated sets of financial statements. The sets of statements include:

- Government-Wide Financial Statements
- Fund Financial Statements

Governmental Funds

Proprietary Fund

In addition, the notes to the financial statements are included to provide information that is essential to a user's understanding of the basic financial statements.

Notes to the Financial Statements April 30, 2021

## NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Northern Moraine Wastewater Reclamation District (the District) of Illinois is duly organized and existing under the provisions of the laws of the State of Illinois. The government-wide financial statements are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). The more significant of the District's accounting policies established in GAAP and used by the District are described below.

## REPORTING ENTITY

In determining the financial reporting entity, the District complies with the provisions of GASB Statement No. 61, "The Financial Reporting Omnibus – an Amendment of GASB Statements No. 14 and No. 34," and includes all component units that have a significant operational or financial relationship with the District. Based upon the criteria set forth in the GASB Statement No. 61, there are no component units included in the reporting entity.

## **BASIS OF PRESENTATION**

### **Government-Wide Statements**

The District's basic financial statements include both government-wide (reporting the District as a whole) and fund financial statements (reporting the District's major funds). Both the government-wide and fund financial statements categorize primary activities as either governmental or business-type.

In the government-wide Statement of Net Position, both the governmental and business-type activities columns are (a) presented on a consolidated basis by column, and (b) reported on a full accrual, economic resource basis, which recognizes all long-term assets/deferred outflows and receivables as well as long-term debt/deferred inflows and obligations. The District's net position is reported in three parts: net investment in capital assets; restricted; and unrestricted. The District first utilizes restricted resources to finance qualifying activities.

The government-wide Statement of Activities reports both the gross and net cost of each of the District's functions and business-type activities (general government, sewerage, etc.). The functions are supported by general government revenues (property and personal property replacement taxes, interest income, etc.). The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, which include 1) changes to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment.

This government-wide focus is more on the sustainability of the District as an entity and the change in the District's net position resulting from the current year's activities.

Notes to the Financial Statements April 30, 2021

## NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

## **BASIS OF PRESENTATION** – Continued

## **Fund Financial Statements**

The financial transactions of the District are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprise its assets/deferred outflows, liabilities/deferred inflows, fund equity, revenues and expenditures/expenses. Funds are organized into two major categories: governmental and proprietary. An emphasis is placed on major funds within each of the categories. A fund is considered major if it is the primary operating fund of the District or meets the following criteria:

Total assets/deferred outflows, liabilities/deferred inflows, revenues, or expenditures/expenses of that individual governmental or enterprise fund are at least 10 percent of the corresponding total for all funds of that category or type; and

Total assets/deferred outflows, liabilities/deferred inflows, revenues, or expenditures/expenses of the individual governmental fund or enterprise fund are at least 5 percent of the corresponding total for all governmental and enterprise funds combined.

The various funds are reported by generic classification within the financial statements. The following fund types are used by the District:

## **Governmental Funds**

The focus of the governmental funds' measurement (in the fund statements) is upon determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than upon net income. The following is a description of the governmental funds of the District:

General Fund is the general operating fund of the District. It accounts for all revenues and expenditures of the District which are not accounted for in other funds. The General Fund is a major fund. As of April 30, 2021, the District has closed the General Fund into the Sewerage Fund.

Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. The District maintains one major special revenue fund. The Audit Fund is used to account for the collection of property taxes for payment of the District's annual audit. As of April 30, 2021, the District has closed the Audit Fund into the Sewerage Fund.

Notes to the Financial Statements April 30, 2021

## NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

## **BASIS OF PRESENTATION** – Continued

Fund Financial Statements - Continued

## **Proprietary Funds**

The focus of proprietary fund measurement is upon determination of operating income, changes in net position, financial position, and cash flows. The generally accepted accounting principles applicable are those similar to businesses in the private sector. The following is a description of the proprietary fund of the District:

Enterprise Funds are required to account for operations for which a fee is charged to external users for goods or services and the activity (a) is financed with debt that is solely secured by a pledge of the net revenues, (b) has third party requirements that the cost of providing services, including capital costs, be recovered with fees and charges or (c) establishes fees and charges based on a pricing policy designed to recover similar costs. The District maintains one major enterprise fund, the Sewerage Fund, which is used to account for the treatment of sewerage of the District's citizens. User charges to customers account for substantially all of the revenue of this fund.

## MEASUREMENT FOCUS AND BASIS OF ACCOUNTING

Measurement focus is a term used to describe "which" transactions are recorded within the various financial statements. Basis of accounting refers to "when" transactions are recorded regardless of the measurement focus applied.

## **Measurement Focus**

On the government-wide Statement of Net Position and the Statement of Activities, both governmental and business-type activities are presented using the economic resources measurement focus as defined below. In the fund financial statements, the "current financial resources" measurement focus or the "economic resources" measurement focus is used as appropriate.

All governmental funds utilize a "current financial resources" measurement focus. Only current financial assets/deferred outflows and liabilities/deferred inflows are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period.

All proprietary funds utilize an "economic resources" measurement focus. The accounting objectives of this measurement focus are the determination of operating income, changes in net position (or cost recovery), financial position, and cash flows. All assets/deferred outflows and liabilities/deferred inflows (whether current or noncurrent) associated with their activities are reported. Proprietary fund equity is classified as net position.

Notes to the Financial Statements April 30, 2021

## NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

## **MEASUREMENT FOCUS AND BASIS OF ACCOUNTING – Continued**

## **Basis of Accounting**

In the government-wide Statement of Net Position and Statement of Activities, both governmental and business-type activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability/deferred inflow is incurred or economic asset used. Revenues, expenses, gains, losses, assets/deferred outflows, and liabilities/deferred inflows resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

In the fund financial statements, governmental funds are presented on the modified accrual basis of accounting. Under this modified accrual basis of accounting, revenues are recognized when "measurable and available." Measurable means knowing or being able to reasonably estimate the amount. Available means collectible within the current period or within sixty days after year end. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. A sixty-day availability period is used for revenue recognition for all other governmental fund revenues. Expenditures (including capital outlay) are recorded when the related fund liability is incurred. However, debt service expenditures, expenditures relating to compensated absences, and claims and judgments are recognized only when payment is due.

In applying the susceptible to accrual concept under the modified accrual basis, those revenues susceptible to accrual are property taxes, intergovernmental revenues, licenses, interest revenue, and charges for services. Only the portion of special assessments received due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenues are not susceptible to accrual because generally they are not measurable until received in cash.

All proprietary funds utilize the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's enterprise funds are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Notes to the Financial Statements April 30, 2021

## NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

## ASSETS/DEFERRED OUTFLOWS, LIABILITIES/DEFERRED INFLOWS, AND NET POSITION/FUND BALANCES

## **Cash and Investments**

For purpose of the Statement of Net Position, the District's cash and cash equivalents are considered to be cash on hand, demand deposits, and cash with fiscal agent. For the purpose of the proprietary funds' Statement of Cash Flows, cash and cash equivalents are considered to be cash on hand, demand deposits, cash with fiscal agent, and all highly liquid investments with an original maturity of three months or less.

Investments are generally reported at fair value. Short-term investments are reported at cost, which approximates fair value. For investments, the District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. All of the District's investments are in 2a7-like investment pools that are measured at the net asset value per share determined by the pool.

Many of the District's funds combine their cash in a common cash account included in the General Fund where available cash is invested. No interest is earned from commingled checking in the General Fund.

## Receivables

In the government-wide financial statements, receivables consist of all revenues earned at year-end and not yet received. Allowances for uncollectible accounts receivable are based upon historical trends and the periodic aging of accounts receivable. Major receivables balances for governmental activities include property taxes and program fees. Business-type activities report program fees as their major receivables.

## **Capital Assets**

Capital assets purchased or acquired with an original cost of \$100 or more, depending on asset class, are reported at historical cost or estimated historical cost. Contributed assets are reported at acquisition value as of the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred.

Notes to the Financial Statements April 30, 2021

## NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

## ASSETS/DEFERRED OUTFLOWS, LIABILITIES/DEFERRED INFLOWS, AND NET POSITION/FUND BALANCES – Continued

## Capital Assets – Continued

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. General capital assets are long-lived assets of the District as a whole. When purchased, such assets are recorded as expenditures in the governmental funds and capitalized. The valuation basis for general capital assets are historical cost, or where historical cost is not available, estimated historical cost based on replacement costs. Depreciation on all assets is computed and recorded using the straight-line method of depreciation over the following estimated useful lives:

Building and Improvements	5 - 40 Years
System Infrastructure	10 - 40 Years
Equipment and Furniture	5 - 20 Years

## **Compensated Absences**

The District accrues accumulated unpaid vacation and associated employee-related costs when earned (or estimated to be earned) by the employee. In accordance with GASB Statement No. 16, no liability is recorded for nonvesting accumulation rights to receive sick pay benefits. However, a liability is recognized for that portion of accumulated sick leave that is estimated to be taken as "terminal leave" prior to retirement.

All vacation pay is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

## **Deferred Outflows/Inflows of Resources**

Deferred outflow/inflow of resources represents an acquisition/reduction of net position that applies to a future period and therefore will not be recognized as an outflow of resources (expense)/inflow of resources (revenue) until that future time.

## **Long-Term Obligations**

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities Statement of Net Position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as expenses at the time of issuance.

Notes to the Financial Statements April 30, 2021

### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

# ASSETS/DEFERRED OUTFLOWS, LIABILITIES/DEFERRED INFLOWS, AND NET POSITION/FUND BALANCES – Continued

### **Net Position**

In the government-wide financial statements, equity is classified as net position and displayed in three components:

Net Investment in Capital Assets – Consists of capital assets, including restricted capital assets, net of accumulated depreciation, and reduced by the outstanding balances of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

Restricted – Consists of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislations.

Unrestricted – All other net position balances that do not meet the definition of "restricted" or "net investment in capital assets."

### NOTE 2 – STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

### **BUDGETARY INFORMATION**

The District follows these procedures in establishing the budgets reflected in the financial statements:

- Prior to July 15<sup>th</sup>, the District Board receives a proposed appropriation ordinance for the fiscal year commencing on May 1<sup>st</sup>. The appropriation ordinance includes proposed expenditures and the means of financing them.
- A public hearing is conducted at a public meeting to obtain taxpayer comments.
- The appropriation ordinance is legally enacted through passage of an ordinance prior to July 31<sup>st</sup>.
- The District Treasurer, in conjunction with the Board, is authorized to expend the un-expensed balance of any item or items of any general appropriation in making up any deficiency in any item or items of the same general appropriation.
- The original appropriation ordinance was passed on June 14, 2020 and was not amended during the fiscal year.
- Formal budgetary integration is not employed as a management control devise during the year for any fund.
- Appropriation comparisons presented in the accompanying financial statements are prepared on the modified accrual or accrual basis of accounting. Governmental funds utilize the modified accrual basis of accounting and the business-type funds use the accrual basis of accounting for both appropriation purposes and actual results.
- Expenditures cannot legally exceed appropriations at the fund level.
- All appropriations lapse at year-end.

Notes to the Financial Statements April 30, 2021

### **NOTE 3 – DETAIL NOTES ON ALL FUNDS**

### **DEPOSITS AND INVESTMENTS**

The District maintains a cash and investment pool that is available for use by all funds. Each fund type's portion of this pool is displayed on the combined balance sheet as "cash and investments." In addition, investments are separately held by several of the District's funds.

Permitted Deposits and Investments – Statutes authorize the District to make deposits/invest in commercial banks, savings and loan institutions, obligations of the U.S. Treasury and U.S. Agencies, obligations of States and their political subdivisions, credit union shares, repurchase agreements, commercial paper rated within the three highest classifications by at least two standard rating services, and the Illinois Funds.

The Illinois Funds is an investment pool managed by the Illinois Public Treasurer's Office which allows governments within the State to pool their funds for investment purposes. Illinois Funds is not registered with the SEC as an investment company. Investments in Illinois Funds are valued at the share price, the price for which the investment could be sold.

### Interest Rate Risk, Credit Risk, Custodial Credit Risk and Concentration Risk

*Deposits.* At year-end, the carrying amount of the District's deposits for governmental and business-type activities totaled \$2,606,214 and the bank balances totaled \$2,218,965. In addition, the District has \$73,377 invested in the Illinois Funds at year-end.

Interest Rate Risk. Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The District has adopted its investment policy in accordance with the Illinois Public Funds Investment Act. According to the District's investment policy, the investment portfolio shall remain sufficiently liquid to enable the District to meet all operating requirements which may be reasonably anticipated in any District Fund. The District's investment in Illinois Funds has an average maturity of less than one year.

Custodial Credit Risk. In the case of deposits, this is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District's investment policy states that the District shall enter into collateral security agreements or similar instruments with any financial institution wherein District funds on deposit exceed FDIC insured limits. At year-end \$417,774 of the bank balance of the deposits was not covered by federal depository or equivalent insurance, and represents cash at paying agent for debt service payments. For an investment, this is the risk that in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The District's investment in Illinois Funds is not subject to custodial credit risk.

Notes to the Financial Statements April 30, 2021

### NOTE 3 – DETAIL NOTES ON ALL FUNDS – Continued

### **DEPOSITS AND INVESTMENTS** – Continued

### Interest Rate Risk, Credit Risk, Custodial Credit Risk and Concentration Risk - Continued

*Credit Risk.* Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Besides investing in instruments in accordance with State Statute, the District's investment policy does not further address credit risk. At year-end, the District's investment in the Illinois Funds is rated AAAm by Standard & Poor's.

Concentration Risk. This is the risk of loss attributed to the magnitude of the District's investment in a single issuer. The District's investment policy does not require diversification, but the decision is left to the discretion of the Board. At year-end, the District does not have any investments over 5 percent of the total cash and investment portfolio.

### **CAPITAL ASSETS**

Business-type capital asset activity for the year was as follows:

	Beginning			Ending
	Balances	Increases	Decreases	Balances
Nondepreciable Capital Assets				
Land	\$ 1,076,505	_	_	1,076,505
Construction in Progress	-	740,856	-	740,856
8	1,076,505	740,856	-	1,817,361
Depreciable Capital Assets				
Building and Improvements	2,865,253	206,491	2,500	3,069,244
System Insfrastructure	48,340,239	-	-	48,340,239
Equipment and Furniture	4,672,526	473,203	810,000	4,335,729
	55,878,018	679,694	812,500	55,745,212
Less Accumulated Depreciation				
Building and Improvements	1,663,387	64,515	2,500	1,725,402
System Insfrastructure	8,459,890	1,204,144	-	9,664,034

	13,111,121	1,447,485	812,500	13,746,106
Total Net Depreciable Capital Assets	42,766,897	(767,791)	-	41,999,106
Total Net Capital Assets	43,843,402	(26,935)		43,816,467

Depreciation expense was charged to the Sewerage Fund.

Notes to the Financial Statements April 30, 2021

### NOTE 3 – DETAIL NOTES ON ALL FUNDS – Continued

### PROPERTY TAXES

Property taxes receivable are recognized at the time they are levied. Property taxes are levied and attached as an enforceable lien on property on January 1 and are payable in two installments on June 1 and September 1 subsequent to the year of the levy. The tax levy for 2021 property taxes was adopted on November 10, 2020. That portion of the property taxes which are not available for the current year's operations are shown as deferred revenue.

### LONG-TERM DEBT

# **General Obligation Alternate Revenue Bonds**

The District issues general obligation alternate bonds to provide funds for the acquisition and construction of major capital facilities. Alternate revenue source bonds provide for the collection, segregation and distribution of certain revenues received by the District for the payment of principal and interest on the alternate revenue source bonds. Alternate revenue source bonds outstanding are as follows:

	Beginning			Ending
Issue	Balances	Issuances	Retirements	Balances
ФА 100 000 G				
\$4,100,000 General Obligation Alternate				
Revenue Source Refunding Bonds of				
2019, due in annual installments of				
\$360,000 to \$450,000 plus interest at a				
rate of 2.02% through May 1, 2029.	\$ 4,100,000	-	360,000	3,740,000

# **Long-Term Liability Activity**

Changes in long-term liabilities during the fiscal year were as follows:

Type of Debt	Beginning Balance	Additions	Deductions	Ending Balances	Amounts Due within One Year
Business-Type Activities					
	¢ 20.111	2.002	1 5 4 1	21.652	( 220

### NET POSITION CLASSIFICATIONS

Net investment in capital assets was comprised of the following as of April 30, 2021:

Business-Type Activities	
Capital Assets - Net of Accumulated Depreciation	\$ 43,816,467
Less Capital Related Debt:	
Alternate Revenue Source Bonds	(3,740,000)
Net Investment in Capital Assets	40,076,467

Notes to the Financial Statements April 30, 2021

### NOTE 3 - DETAIL NOTES ON ALL FUNDS - Continued

### INTERFUND TRANSFERS

Transfers were made during the year to close the General and Audit Funds into the Sewerage Fund. Interfund transfers for the year consisted of the following:

Transfer In	Transfer Out	Amount
Sewerage Sewerage	General Audit	\$ 366,639 8,535
		375,174

### FUND BALANCE CLASSIFICATIONS

In the governmental fund financial statements, the District considers restricted amounts to have been spent when an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available. The District first utilizes committed, then assigned and then unassigned fund balance when an expenditure is incurred for purposes for which all three unrestricted fund balances are available.

*Nonspendable Fund Balance*. Consists of resources that cannot be spent because they are either: a) not in a spendable form; or b) legally or contractually required to be maintained intact.

Restricted Fund Balance. Consists of resources that are restricted to specific purposes, that is, when constraints placed on the use of resources are either: a) externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or b) imposed by law through constitutional provisions or enabling legislation.

Committed Fund Balance. Consists of resources constrained (issuance of an ordinance) to specific purposes by the government itself, using its highest level of decision-making authority, the Board, to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest-level action to remove or change the constraint.

Assigned Fund Balance. Consists of amounts that are constrained by the Board's intent to be used for specific purposes but are neither restricted nor committed. Intent is expressed by a) the Board itself or b) a body or official to which the Board has delegated the authority to assign amounts to be used for specific purposes. The District's highest level of decision-making authority is the Board, who is authorized to assign amounts to a specific purpose.

*Unassigned Fund Balance*. Consists of residual net resources of a fund that has not been restricted, committed, or assigned within the General Fund and deficit fund balances of other governmental funds.

Notes to the Financial Statements April 30, 2021

### NOTE 3 – DETAIL NOTES ON ALL FUNDS – Continued

### **FUND BALANCE CLASSIFICATIONS** – Continued

Minimum Fund Balance Policy. The District's policy states that the District shall strive to maintain an unassigned fund balance in the General Fund of at least 50% of the estimated annual operating expenditures of the fund.

The following is a schedule of fund balance classifications for the governmental funds as of the date of this report:

	General		Audit	Totals
Fund Balances				
Restricted				
Audit	\$	-	-	-
Unassigned		-	-	-
Total Fund Balances		-	-	<u>-</u>

### **NOTE 4 – OTHER INFORMATION**

### RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to the District's employees; and net income losses. The District has commercial insurance for all major programs. For insured programs, there have been no significant reductions in insurance coverage. Any settlements during the past three years have not exceeded the District's coverage.

### **CONTINGENT LIABILITIES**

### **COVID-19 Financial Impact**

In March 2020, the World Health Organization declared the COVID-19 virus a public health emergency. As of the date of this report, the extent of the impact of COVID-19 on the District's operations and financial position cannot be determined.

### Litigation

The District is not aware of any pending litigation or potential non-disclosed liabilities that management believes would have a material adverse effect on the financial statements.

Notes to the Financial Statements April 30, 2021

### NOTE 4 - OTHER INFORMATION - Continued

### EMPLOYEE RETIREMENT SYSTEM – DEFINED BENEFIT PENSION PLAN

### Illinois Municipal Retirement Fund (IMRF)

The District contributes to one defined benefit pension plan, the Illinois Municipal Retirement Fund (IMRF), a defined benefit agent multiple-employer public employee retirement system. The District joined IMRF on January 1, 2018. IMRF issues a publicly available financial report that includes financial statements and required supplementary information for the plan as a whole, but not by individual employer. That report may be obtained on-line at <a href="www.imrf.org">www.imrf.org</a>. The benefits, benefit levels, employee contributions, and employer contributions are governed by Illinois Compiled Statutes (ILCS) and can only be amended by the Illinois General Assembly.

### **Plan Descriptions**

Plan Administration. All employees hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members. The plan is accounted for on the economic resources measurement focus and the accrual basis of accounting. Employer and employee contributions are recognized when earned in the year that the contributions are required, benefits and refunds are recognized as an expense and liability when due and payable.

Benefits Provided. IMRF has three benefit plans. The vast majority of IMRF members participate in the Regular Plan (RP). The Sheriff's Law Enforcement Personnel (SLEP) plan is for sheriffs, deputy sheriffs, and selected police chiefs. Counties could adopt the Elected County Official (ECO) plan for officials elected prior to August 8, 2011 (the ECO plan was closed to new participants after that date).

IMRF provides two tiers of pension benefits. Employees hired *before* January 1, 2011, are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under Tier 1, the pension is increased by 3% of the original amount on January 1 every year after retirement.

Notes to the Financial Statements April 30, 2021

### **NOTE 4 – OTHER INFORMATION** – Continued

### EMPLOYEE RETIREMENT SYSTEM - DEFINED BENEFIT PENSION PLAN - Continued

### Illinois Municipal Retirement Fund (IMRF) - Continued

Benefits Provided – Continued. Employees hired on or after January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with ten years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the *lesser* of:

- 3% of the original pension amount, or
- 1/2 of the increase in the Consumer Price Index of the original pension amount.

*Plan Membership.* As of December 31, 2020, the measurement date, the following employees were covered by the benefit terms:

Inactive Plan Members Currently Receiving Benefits	-
Inactive Plan Members Entitled to but not yet Receiving Benefits	3
Active Plan Members	10
Total	13

Contributions. As set by statute, the District's Regular Plan Members are required to contribute 4.5% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. For the year-ended April 30, 2021, the District's contribution was 9.04% of covered payroll.

*Net Pension Liability*. The District's net pension liability was measured as of December 31, 2020. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

Notes to the Financial Statements April 30, 2021

### **NOTE 4 – OTHER INFORMATION** – Continued

### EMPLOYEE RETIREMENT SYSTEM - DEFINED BENEFIT PENSION PLAN - Continued

### Illinois Municipal Retirement Fund (IMRF) - Continued

Actuarial Assumptions. The total pension liability was determined by an actuarial valuation performed, as of December 31, 2020, using the following actuarial methods and assumptions:

Actuarial Cost Method	Entry Age Normal
Asset Valuation Method	Market
Actuarial Assumptions Interest Rate	7.25%
Salary Increases	2.85% to 13.75%
Cost of Living Adjustments	3.25%
Inflation	2.25%

For non-disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Retiree, Male (adjusted 106%) and Female (adjusted 105%) tables, and future mortality improvements projected using scale MP-2020. For disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Disabled Retiree, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020. For active members, the Pub-2010, Amount-Weighted, below-median income, General, Employee, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020.

The long-term expected rate of return on pension plan investments was determined using a buildingblock method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

Notes to the Financial Statements April 30, 2021

### **NOTE 4 – OTHER INFORMATION** – Continued

### EMPLOYEE RETIREMENT SYSTEM - DEFINED BENEFIT PENSION PLAN - Continued

### Illinois Municipal Retirement Fund (IMRF) - Continued

Actuarial Assumptions – Continued.

		Long-Term
		Expected Real
Asset Class	Target	Rate of Return
Fixed Income	28.00%	3.25%
Domestic Equities	37.00%	5.75%
International Equities	18.00%	6.50%
Real Estate	9.00%	5.20%
Blended	7.00%	3.60% - 7.60%
Cash and Cash Equivalents	1.00%	1.85%

### **Discount Rate**

The discount rate used to measure the total pension liability was 7.25%, the same as the prior valuation. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that District contributions will be made at rates equal to the difference between the actuarially determined contribution rates and the member rate. Based on those assumptions, the Fund's fiduciary net position was projected to be available to make all project future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all period of projected benefit payments to determine the total pension liability.

### **Discount Rate Sensitivity**

The following is a sensitivity analysis of the net pension liability to changes in the discount rate. The table below presents the pension liability of the District calculated using the discount rate as well as what the District's net pension liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate:

	Current				
	1%	6 Decrease	Discount Rate	1% Increase	
		(6.25%)	(7.25%)	(8.25%)	
				_	
Net Pension Liability	\$	336,342	222,504	126,495

\$21,114 reported as deferred outflows of resources related to pensions resulting from employer contributions subsequent to the measurement date and will be recognized as a reduction of the net pension liability in the reporting year ended April 30, 2022. Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense in future periods as follows:

Fiscal	Net Deferred Outflows
Year	of Resources
2022	\$ 26,304
2023	26,302
2024	25,283
2025	26,520
2026	28,663
Thereafter	109,292
Total	242,364

Notes to the Financial Statements April 30, 2021

### **NOTE 4 – OTHER INFORMATION** – Continued

### OTHER POST-EMPLOYMENT BENEFITS

The District has evaluated its potential other post-employment benefits liability. Former employees who choose to retain their rights to health insurance through the District are required to pay 100% of the current premium. However, there is minimal participation. As the District provides no explicit benefit, and there is minimal participation, there is no material implicit subsidy to calculate in accordance with GASB Statement No. 75, Accounting and Financial Reporting for Post-Employment Benefits Other Than Pensions. Therefore, the District has not recorded a liability as of April 30, 2021.

# REQUIRED SUPPLEMENTARY INFORMATION

Required supplementary information includes financial information and disclosures that are required by the GASB but are not considered a part of the basic financial statements. Such information includes:

# OTHER SUPPLEMENTARY INFORMATION

Other supplementary information includes financial statements and schedules not required by the GASB, nor a part of the basic financial statements, but are presented for purposes of additional analysis.

Such schedules include:

- Combining Schedules Major Enterprise Fund Subfunds
- Budgetary Comparison Schedule Sewerage Fund

### INDIVIDUAL FUND DESCRIPTIONS

### **GENERAL FUND**

The General Fund is used to account for all financial resources except those required to be accounted for in another fund. As of April 30, 2021, the General Fund has been closed into the Sewerage Fund.

### SPECIAL REVENUE FUND

Special Revenue Funds are created to account for the proceeds of specific revenue sources (other than fiduciary funds or capital project funds) that are legally restricted to expenditure for specified purposes.

### **Audit Fund**

The Audit Fund is used to account for the collection of property taxes for payment of the District's annual audit. As of April 30, 2021, the Audit Fund has been closed into the Sewerage Fund.

### **ENTERPRISE FUND**

Enterprise Funds are used to account for operations that are financed and operated in a manner similar to private business enterprises where the intent is that costs of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or where it has been decided that periodic determination of revenues earned, expenses incurred and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purpose.

### **Sewerage Fund**

The Sewerage Fund is used to account for the treatment of sewerage of the District's citizens. User charges to customers account for substantially all of the revenue of this fund.
