

JOB OPENING

NMWRD PROJECT ENGINEER / PROJECT MANAGER

The Northern Moraine Wastewater Reclamation District has an immediate opening for a talented and unique Project Engineer / Project Manager position (exact position DOQ) at its innovative resource recovery facility. You will work alongside passionate wastewater professionals and staff that love what they do and do what they love. You will never have a dull day and you will constantly be challenged and wear many hats that will allow you to grow in your career in many ways. You will have the support to do good in the field of sanitation through your position. This is a salaried exempt position with responsibility encompassing all facets of wastewater engineering compromised of the District's collections system and treatment plant and will report directly to the District Manager.

Applicants should possess a Bachelor's Degree in Civil or Environmental Engineering or equivalent degree. Excellent oral and written communication skills are a prerequisite. Other combinations of education, skills, experience, and certification may be considered. Starting Salary Range is \$75,032 - \$108,766 depending on qualifications and certifications/licensure. The District provides excellent benefits, including Illinois Municipal Retirement Fund.

Applicant will be responsible for assisting in preparing monthly written and oral reports to the District's Board of Trustees. The Project Engineer / Project Manager will assist in undertaking in-house projects generally involved in the repair, replacement, or rehabilitation of facilities from concept to completion whenever possible. The position will also perform construction observation on District projects, review and management of sewer cleaning and televising work and responsibility for maintaining accurate atlas maps of District infrastructure via GIS software. Experience in drafting and managing permit applications for major capital improvement projects is highly desirable. Strong computer skills including experience with drafting, ArcGIS software, Computerized Maintenance and Management Software is highly desired. Above all, strong critical thinking and problem-solving skills are required.

Applicant should be able to show knowledge of the principals and practices involved in the operation and maintenance of wastewater collection, conveyance, and treatment systems. Interested individuals should email a cover letter and resume, including professional references to Mohammed Haque, District Manager at haque@nmwrd.org.

The Northern Moraine Wastewater Reclamation District is an Equal Opportunity Employer.
